

NOTICE OF AMENDMENT

Revision of Air Operator Certificate Requirements (AOCR)

Please be informed that the AOCR has been amended to incorporate the following key changes:

- Singapore air operators are required to perform safety risk assessments if they plan to operate in areas with known or forecast volcanic ash contamination; and
- The Authority may approve Singapore air operators to operate with reduced cabin crew for up to two consecutive sectors.

These amendments are incorporated in Issue 3, Revision 26 of the AOCR, which comes into effect on 22 December 2014.

The AOCR can be downloaded at our CAAS website at <http://www.caas.gov.sg>
