

CELEBRATING CULTURAL AND INTELLECTUAL EXCHANGE

The Singapore Aviation Academy (SAA) recently celebrated the convergence of diverse cultures at the academy to share knowledge, learn from one another and even forge future collaborations. Through its annual Cultural Night, aviation professionals, lecturers, instructors and partners came together outside of the classroom settings to interact, network and learn more about each other's cultures. The participants were also introduced to Singapore's unique traditions and way of life through fun games, entertainment, such as a snake charming performance and music from a live Chinese orchestra, and even the dinner menu, which included both local and international cuisine. This year's event, held on 21 July, was particularly special as it also commemorated the 20th anniversaries of the Civil Aviation

Management Programme (CAMP) and the Seminar on Communications, Navigation and Surveillance Systems for Air Traffic Management (CNS/ATM). Both programmes have come a long way with significant enhancements and updates made over the decades to keep up with the rapid developments of the aviation industry and are among the flagship courses at SAA today.

Pleased with the turnout, Yap Ong Heng, Director-General, Civil Aviation Authority of Singapore, thanked guests for their participation in the programme, saying, "May the many friendships forged at SAA and tonight continue to grow and last for many years to come."

Guests also participated in a song and dance stage performance
