

Building a Scalable and Integrated SAF Ecosystem in Singapore

Singapore Sustainable Aviation Fuel Company Ltd. (SAFCo) is committed to building a scalable and integrated Sustainable Aviation Fuel (SAF) ecosystem that accelerates adoption, catalyses local and regional supply, and supports the sustainable growth of Singapore's air hub. SAFCo aims to operationalise Singapore's national SAF policy by aggregating demand, managing centralised procurement, and ensuring credible management of SAF Environmental Attributes (EAs). Through strong public-private partnerships, SAFCo will enable a robust, transparent, and resilient SAF ecosystem that drives aviation sustainability.
