

10 July 2021

UPDATE ON BORDER MEASURES FOR TRAVELLERS WITH TRAVEL HISTORY TO INDONESIA

The Multi-Ministry Taskforce has been closely monitoring the global COVID-19 situation and will be tightening border measures given the worsening situation in Indonesia. Please refer to the Ministry of Health's press release in **Annex A**.

2 Currently, all travellers entering or transiting through Singapore with recent travel history to Indonesia within the last 21 days¹ prior to departure for Singapore are required to take a COVID-19 Polymerase Chain Reaction ("PCR") test within 72 hours of their flight to Singapore.

3 With effect from **12 July 2021, 2359 hours (Singapore time)**, until further notice, all travellers with travel history to Indonesia within the last 21 days¹ will:

- (a) not be allowed to transit or transfer through Singapore; and
- (b) those entering Singapore will be required to take a COVID-19 PCR test within **48 hours** of their flight to Singapore.

4 Existing Not-To-Land (NTL) policies and procedures will apply for passengers who are denied entry into Singapore if they do not meet Singapore's prevailing entry requirements or who are not allowed to transfer/transit through Singapore.

5 Information on the additional requirement for all inbound and transit and transfer passengers will be updated in the IATA Timatic service.

Margaret Tan
Director (Airport Operations Regulation & Aviation Security)
Civil Aviation Authority of Singapore
