

Summary of Vaccinated Travel Lane (VTL) Requirements

No.	Requirement	Details	Applicable To		
			Short-Term Visitor ¹	Long-Term Pass Holder	Singapore Citizen/ Permanent Resident
1	Vaccinated Travel Pass (VTP)	<ul style="list-style-type: none"> Applications for the VTP² for travellers from Australia and Switzerland will open on 1 November 2021, 1000 hours (Singapore time) for entry into Singapore on or after 8 November 2021. Applications for the VTP must be made between seven and thirty calendar days prior to the intended date of entry into Singapore. The VTP is valid for single entry up to six calendar days from the intended date of entry into Singapore. More details can be found at https://safetravel.ica.gov.sg. 	√	√	×
2	Vaccination	<ul style="list-style-type: none"> All VTL travellers must have been fully vaccinated and present their proof of vaccination. An individual is considered fully vaccinated 14 days after he or she has received the full regimen of Pfizer-BioNTech/Comirnaty, Moderna or other World Health Organisation Emergency Use Listing vaccines. More details can be found at https://safetravel.ica.gov.sg/health/vtsg. Children aged 12 years and below in the calendar year are not required to present a proof of vaccination to enter Singapore under the VTL if they are accompanied by a VTL traveller who meets all VTL requirements for entry into Singapore. 	√	√	√

¹ Short-term visitors refer to foreign travellers who are not Singapore Citizens, Singapore Permanent Residents or Singapore Long-Term Pass Holders.

² Children aged 12 years and below in the calendar year do not need to apply for a VTP. To illustrate, for travellers entering Singapore in 2021, those born in or after 2009 are not required to apply for a VTP.

No.	Requirement	Details	Applicable To		
			Short-Term Visitor ¹	Long-Term Pass Holder	Singapore Citizen/Permanent Resident
		<ul style="list-style-type: none"> • Only vaccination certificates that can be digitally verified will be accepted. <ul style="list-style-type: none"> ➤ The vaccination certificates have to contain the necessary information about the travellers' full vaccination regimen, as specified on the Safe Travel Office website. ➤ For travellers vaccinated in Canada or the United States of America (USA), we currently only accept vaccination certificates issued in the SMART Health Card (SHC) format, by issuers in Canada or USA on the CommonTrust Network or Vaccination Credential Initiative. • For entry into Singapore before 8 November 2021, regardless of which VTL country the traveller departs from, vaccination certificates issued in Brunei Darussalam, Canada, Denmark, France, Germany, Italy, the Netherlands, Spain, the United Kingdom (UK), the USA or Singapore will be accepted. • For entry into Singapore on or after 8 November 2021, regardless of which VTL country the traveller departs from, vaccination certificates issued in Australia or Switzerland will also be accepted, on top of the countries mentioned above. • For entry into Singapore on or after 15 November 2021, regardless of which VTL country the traveller departs from, vaccination certificates issued in the ROK will also be accepted, on top of the countries mentioned above. 			
3	Travel History	<ul style="list-style-type: none"> • For entry into Singapore before 8 November 2021, all travellers, irrespective of their nationality/citizenship, must have remained in Brunei Darussalam, Canada, Denmark, France, Germany, Italy, the Netherlands, Spain, the UK or the USA in the last 14 consecutive days prior to departure to Singapore. 	√	√	√

No.	Requirement	Details	Applicable To		
			Short-Term Visitor ¹	Long-Term Pass Holder	Singapore Citizen/ Permanent Resident
		<ul style="list-style-type: none"> • For entry into Singapore on or after 8 November 2021, the list of VTL countries will include Australia and Switzerland. • For entry into Singapore on or after 15 November 2021, the list of VTL countries will include the ROK. • If the traveller has been in Singapore within those last 14 days, his/her stay in Singapore can be counted towards fulfilling this 14-day travel history requirement³. 			
4	Designated Flight	<ul style="list-style-type: none"> • Travellers who are travelling to Singapore on the VTL must travel on designated VTL flights into Singapore from any VTL country. They may transit via another VTL country⁴ to take a designated VTL flight into Singapore. • For entry into Singapore before 8 November 2021, the list of VTL countries includes Brunei Darussalam, Canada, Denmark, France, Germany, Italy, the Netherlands, Spain, the UK or the USA. • For entry into Singapore on or after 8 November 2021, the list of VTL countries will include Australia and Switzerland. 	√	√	√

³ For example, a traveller departing from Germany to enter Singapore before 8 November 2021 who has been in Brunei Darussalam, Canada, Denmark, France, Germany, Italy, the Netherlands, Spain, the UK, the USA and/or Singapore in the last 14 consecutive days prior to departure for Singapore fulfills the travel history requirement of the VTL. For travellers entering Singapore on or after 8 November 2021, this list of countries can also include Australia and Switzerland. For travellers entering Singapore on or after 15 November 2021, this list of countries can also include the ROK.

⁴ For example, a traveller from the USA may transit via Germany to take a designated VTL flight from Germany to Singapore.

			Short-Term Visitor ¹	Long-Term Pass Holder	Singapore Citizen/Permanent Resident
		<ul style="list-style-type: none"> • For entry into Singapore on or after 15 November 2021, the list of VTL countries will include the ROK. • Travellers who are transferring or transiting through Singapore will also be allowed to travel on the designated VTL flights. These travellers⁵ must present vaccination certificates issued in any VTL country or Singapore and must have remained in one or more of the VTL countries and/or Singapore in the last 14 consecutive days prior to travelling on a designated VTL flight. Such travellers⁶ will also be required to take a pre-departure PCR test within 48 hours before departing to Singapore. • Information of the designated VTL flights will be made available on the websites of the relevant airlines connecting Singapore and the VTL country. 			
5	COVID-19 Testing	<p>All travellers entering Singapore are required to take the following COVID-19 Polymerase Chain Reaction (PCR) tests:</p> <p><u>Pre-Departure PCR Test.</u> Travellers must undergo this test within 48 hours before departing to Singapore and obtain a negative test result. Test result certificate must be presented in English.</p> <p><u>On-Arrival PCR Test.</u> Travellers are required to take this test upon arrival at Changi Airport.</p>	√	√	√

⁵ Children aged 12 years and below in the calendar year (i.e. those born in or after 2009, if transiting/transferring through Singapore in 2021) are not required to present any proof of vaccination to travel on the designated VTL flights to transfer or transit through Singapore.

⁶ Children aged 2 years and below in the calendar year (i.e. those born in or after 2019, if transiting/transferring through Singapore in 2021) are not required to undergo the pre-departure COVID-19 PCR test to transfer or transit through Singapore.

No.	Requirement	Details	Applicable To		
			Short-Term Visitor ¹	Long-Term Pass Holder	Singapore Citizen/Permanent Resident
		They should also register and make payment for their on-arrival COVID-19 PCR test prior to departing for Singapore at https://safetravel.changiairport.com .			
6	Self-Isolation till Negative On-arrival COVID-19 PCR Result is Notified	<p>After taking the on-arrival COVID-19 PCR test at Changi Airport, travellers are to immediately take private transportation, taxi, or private hire car from the airport to their declared place of accommodation⁷.</p> <p>Travellers⁸ must isolate alone, or with household members who are vaccinated and have the same travel history, arrival date and self-isolation requirement, until their on-arrival test result is confirmed to be negative. If there are other occupants in the accommodation, without the same travel history, arrival date and self-isolation requirement, the traveller(s) must isolate in an individual room with an en-suite toilet. The test results will be out within 24 hours.</p> <p>After being notified of their negative on-arrival test results, travellers will be allowed to go about their activities in Singapore.</p>	√	√	√
7	COVID-19 Travel Insurance	Short-term visitors must purchase travel insurance for the entire duration of their stay in Singapore, with a minimum coverage of S\$30,000 for COVID-19-related medical treatment and hospitalisation costs, prior to travel to Singapore. Should their COVID-19 treatment cost go beyond S\$30,000, visitors will have to pay for the excess.	√	×	×

⁷ The accommodation must be a residential (ie. HDB flat, condominium or landed property) or non-residential accommodation (i.e hotel or serviced apartment). Travellers may refer to the Singapore Hotel Association (SHA) website <https://sha.org.sg> for a list of hotels currently accepting visitors travelling to Singapore on the VTL.

⁸ Since children aged 2 years and below in the calendar year (i.e. those born in or after 2019, if entering Singapore in 2021) are not required to undergo the on-arrival COVID-19 PCR tests, they are also not required to self-isolate upon arrival.

		For more information, please refer to https://safetravel.ica.gov.sg/health/travelinsurance .			
8	Contact Tracing	To facilitate the contact tracing process, short-term visitors ⁹ will be required to download and register for the TraceTogether app on their mobile devices prior to departing for Singapore. More details can be found at https://www.tracetgether.gov.sg .	√	×	×

⁹ Children aged 6 years and below in the calendar year (i.e. those born in or after 2015, if entering Singapore in the year 2021) are exempted from the TraceTogether requirement. Those aged 7 to 12 years in the calendar year (i.e. those born from 2009 to 2014, both inclusive, if entering Singapore in 2021) are eligible to be issued TraceTogether tokens in lieu of the requirement to have a mobile device with the TraceTogether app downloaded.
