

*presents*  
**Enterprise Safety Oversight Management System (eSOMS)  
Familiarisation and Onboarding (Phase 1)**

12 March 2019, Singapore Aviation Academy

eSOMS is a new online system that will serve as a one-stop portal for users to apply for and manage CAAS safety-related permits and approvals at their convenience. All future applications for such permits and approvals will be done through eSOMS, which will improve productivity and efficiency across the processing cycle and serve to enhance the user experience.

This talk will provide attendees with an overview of the new portal, the implementation timeline and process, and the support that will be available during the transition into eSOMS. Attendees will also have the opportunity to view a live demo of eSOMS to better understand the various functionalities and benefits of the new portal.

We look forward to your active participation at this CAAS Safety Series talk.

**DATE**

Tuesday, 12 March 2019

## **DRESS CODE**

Office Attire

## **WHO SHOULD ATTEND**

**If you receive this invitation, it means that your organisation will be onboarded to eSOMS between March 2019 and August 2019 (Phase 1).** As eSOMS will replace existing paper forms and applications, we strongly encourage personnel who apply for and manage CAAS permits/approvals in your organisation to attend.

Phase 1 of the eSOMS onboarding will involve the following segments of the aviation industry:

- Singapore Air Operator Certificate (AOC) Holders, in particular:
  - Personnel dealing with aircraft certificates, e.g., Certificate of Registration, Certificate of Airworthiness, Noise Certificate
  - Personnel dealing with Minor Modification Approval or Repair Design Approval
- Approved Maintenance Organisations
- Design and/or Production Organisations Approval Holders

## **REGISTRATION**

There is no registration fee for this safety series. Please register your attendance using the following [link](#).

## **CLOSING DATE**

Monday, 11 March 2019

### **ABOUT the CAAS Safety Series**

CAAS seeks to promote a strong safety culture and embed a robust safety framework through greater collaboration and engagement with the aviation community. The CAAS Safety Series was therefore launched in early 2011 as a platform to better engage the aviation industry on developments in safety policies and regulations as well as new initiatives from the industry. The Series comprises a mix of talks, workshops or seminars on topical issues related to aviation safety. Please visit [www.caas.gov.sg](http://www.caas.gov.sg) for the calendar of events.
