Building a strong safety culture with you

presents

Enhanced Regulatory and Permit Framework for the Use of Unmanned Aircraft in Singapore

22 May 2015, Singapore Aviation Academy

(Note: This seminar is the second run of the seminar held on 15 May 2015.)

The use of unmanned aircraft is becoming increasingly popular. Today, unmanned aircraft are used for a range of purposes, such as the delivery of goods, aerial filming and photography, search and rescue and inspection of infrastructure and facilities. Given Singapore's busy airspace and densely populated urban environment, the flying of unmanned aircraft must be carried out in a safe and responsible manner. If not carried out properly, the operation of unmanned aircraft may pose a risk to aviation and public safety and security.

An enhanced regulatory and permit framework for unmanned aircraft operations in Singapore will be introduced to facilitate their usage while mitigating the associated aviation safety, public safety and security risks. The enhancements are expected to take effect on 1 June 2015 after the necessary legislative processes are completed.

At this seminar, speakers from CAAS will share details of the enhanced regulatory framework and permit regime with participants. Attendees will be informed of the key proposed changes to the regulatory framework. Guidance will also be provided on the types of unmanned aircraft operations that would require a permit under the permit regime.

We look forward to your presence and active participation at this CAAS Safety Series seminar.

PROGRAMME HIGHLIGHTS

2.00pm	Registration
2.30pm	Welcome Remarks
2.40pm	Enhanced Regulatory and Permit Framework for the Use of Unmanned Aircraft
3:40pm	Tea Break
4.00pm	Question & Answer Session
4:50pm	Closing Remarks
5.00pm	End of session

*In order to better respond to your questions, we invite you to send them in advance to eunice_chen@caas.gov.sg by **21 May 2015**.*

EVENT INFORMATION

Date

Friday, 22 May 2015

Venue

Sim Kee Boon Auditorium, Level 1
Singapore Aviation Academy
No 1 Aviation Drive
Singapore 499867

Who Should Attend

Anyone who is interested to operate unmanned aircraft for commercial purposes, specialised services, or recreational/private purposes in Singapore. Unmanned aircraft hobbyist clubs and associations, Institutes of Higher Learning, research organisations, and retailers of unmanned aircraft are also invited to attend. This seminar would also be beneficial to anyone interested in unmanned aircraft, and other professionals working in the aviation industry.

Dress Code

Office Attire/Smart Casual

Registration

There is no registration fee for this safety series. Please click [here](#) to register with your name, designation, organisation, email and contact number.

Closing Date

Thursday, 21 May 2015

About the CAAS Safety Series

CAAS seeks to promote a strong safety culture and embed a robust safety framework through greater collaboration and engagement with the aviation community. The CAAS Safety Series was therefore launched in early 2011 as a platform to better engage the aviation industry on developments in safety policies and regulations as well as new initiatives from the industry. The Series comprises a mix of talks, workshops or seminars on topical issues related to aviation safety. Please visit www.caas.gov.sg for the calendar of events.
