

6 May 2016, Singapore Aviation Academy

CAAS is rolling out two online personnel licensing application systems in mid-2016 viz. the Electronic Licensing Medical and Records System (ELMeRS) and the Civil Aviation Personnel Licensing System (CAPELS).

ELMeRS is an online portal for flight crew and air traffic controllers to access services and information related to their medical assessments.

CAPELS is an online portal for flight crew, air traffic controllers and aircraft maintenance engineers to submit their licensing applications.

In this seminar, you can find more information about the features of ELMeRS and CAPELS as well as the plan for introducing the systems.

We look forward to having you at the CAAS Safety Series seminar.
