

ISSUE 16

EXPANDING FLIGHT OPTIONS TO AFRICA

Singapore Airlines (SIA) customers can now fly to the Ethiopian capital of Addis Ababa through a codeshare agreement with Ethiopian Airlines, a future Star Alliance partner. Effective 1 November, the agreement offers travellers a wider choice of services between Asia and Africa. Under the codeshare agreement, the two carriers jointly provide daily flight services between Singapore and Addis Ababa via Dubai, and vice versa. SIA has added its 'SQ' code to Ethiopian-operated flights between Dubai and Addis Ababa, while the 'ET' code of Ethiopian Airlines has been added to seven SIA-operated flights per week between Singapore and Dubai. When Ethiopian Airlines successfully becomes a member of Star Alliance, SIA KrisFlyer members will be able to accrue frequent flyer miles when travelling on the Ethiopian carrier's flights.
